INTUITIVE *INTERPRETATION* GUIDE

Learn to listen to the symbols, feel the message,
and read the Tarot with greater clarity.

BEFORE YOU BEGIN: YOUR INTUITION READS TOO.

Interpreting the Tarot is not just about memorizing meanings. It is about learning to observe the card, feel the atmosphere of the image, and then confirm it with the traditional symbols.

This guide was created to help you read the Tarot in a more natural, clear, and intuitive way.

You do not need to memorize everything. First observe, then feel, then interpret.

1

OBSERVE

Look at colors, characters, objects, and direction.

2

FEEL

Identify the emotion the card awakens.

3

TRANSLATE

Turn that feeling into a useful message

Remember

Your intuition is your compass. The symbols are the map. Together they lead you to the truth of the card.

Trust

What you feel first is usually the most important key.

SINGLE MODULE

FROM SYMBOL TO INTUITION

A simple method to transform what you see into a clear interpretation.

STAR

CUP

SWORD

MOON

WAND

PENTACLE

Every card has an **image**.

Every image has an **emotion**.

Every emotion can become an **answer**.

THE QUESTION OPENS THE PATH

A good question does not seek to control the future. It seeks to better understand the situation, the emotions, and the next possible step.

Weak Questions

They limit the reading. They seek closed answers and leave little room for intuition and the wisdom of the cards

- ✗ "Will they come back?" → It only gets a yes or no.
- ✗ "Do they love me?" → It is too closed and emotionally dependent.
- ✗ "Yes or no?" → It does not allow nuance or deep understanding.

Intuitive Questions

They open possibilities. They invite you to understand, explore, and receive more complete and useful messages for your path.

- ✗ "What do I need to understand about this relationship?" → Invites clarity and deep understanding.
- ✗ "What energy dominates this situation?" → Allows you to see the atmosphere, the root, and the movement.
- ✗ "What is the wisest next step for me?" → Guides you toward conscious and constructive action

Quick Tip

Before drawing the cards, breathe and formulate the question as if you were asking for clarity, not absolute certainty.

LOOK AT THE CARD BEFORE INTERPRETING IT

Do not read the card immediately.
First look at it.

Ask yourself: *what is happening here?*
Who is acting? Who is waiting?
What emotion dominates the scene?

The 5-Lens Method

Use these lenses to observe the card as if it were a life scene.

1

WHAT DO I SEE?

Colors, characters, objects, landscapes, and directions.

Practice example

Are there warm or cool colors? How many people are there? Where are they looking or heading?

2

WHAT DO I FEEL?

The emotion the scene awakens in you immediately.

Practice example

Does it convey calm or tension? Is there joy, sadness, fear, hope?

3

WHAT IS HAPPENING?

Visible actions, dynamics, and relationships between the elements.

Practice example

What is the person doing? What seems about to happen? Is there movement or stillness?

4

WHAT ENERGY DOMINATES?

The overall atmosphere: heavy, light, expansive, limited, protective...

Practice example

Does the card feel open or closed? Is there light or darkness? Is it a gentle or intense energy?

5

WHAT INITIAL MESSAGE DOES IT GIVE ME?

A short sentence that summarizes what the card tells you before looking for

Practice example

Write a spontaneous sentence. Then you can deepen it with the symbols.

Remember: your first impression is valuable.

Trust what you perceive, even if you do not yet know all the meanings.

TRANSFORM SYMBOLS INTO MESSAGES

Symbols are the language of the Tarot.

Each traditional image has a meaning, but you connect it with what you are experiencing.

The Process: From Symbol to Message

1

IDENTIFY THE SYMBOL

Elige un elemento claro de la carta: una persona, objeto, animal, color, número o paisaje

2

REMEMBER ITS TRADITIONAL MEANING

Consult your knowledge of the Tarot (or your guide). What does that symbol represent in general

3

CONNECT IT TO YOURSELF AND YOUR QUESTION

How does that symbol manifest in your current life and in the situation you are consulting?

4

TRANSLATE IT INTO A USEFUL MESSAGE

Turn that understanding into a clear sentence that guides you, gives you clarity, or shows you the next step.

Step-by-Step Practical Example with a Card: The Fool

IDENTIFY THE SYMBOL

Chosen symbol: the dog
Why?

It is a clear and meaningful element in the scene.

TRADITIONAL MEANING

Loyalty, instinct, protection, faithful guidance, companionship on the journey.

In essence

The dog represents fidelity and natural trust.

PERSONAL CONNECTION AND QUESTION

Example question: What helps me move forward in this new beginning?

Reflection:

In my life, the dog can be my intuition, someone who supports me, or my own loyalty to my dreams.

USEFUL MESSAGE

"You are not alone on this new path. Trust your intuition and those who accompany you. Move forward with courage."

This message:

Provides clarity, builds confidence, and guides the next step.

Remember: It is not about predicting, but about connecting. The symbol gives the clue, your intuition forms the message.

LIGHT, SHADOW AND ADVICE

Every card has two complementary sides and one piece of guidance that encourages you to act wisely.

This step helps you integrate the complete message: understand, accept, and choose.

The 3 Dimensions of Every Card

1. LIGHT

The potential, the positive, what supports you.

- u What strengths does this card show?
- u What resources do you have available?
- u What is opening up or growing?
- u What can you take advantage of now?

Light shows you your allies and opportunities.

2. SHADOW

The challenge, the hidden, what asks for attention.

- u What blocks or fears appear?
- u What do you not want to see but is present?
- u What lesson is this card inviting you to learn?
- u What could go wrong if you ignore this sign?

Shadow shows you what needs to be understood and transformed

3. ADVICE

The practical guidance, the wisest next step.

- u What action or attitude does this card recommend?
- u What would be the wisest thing you can do now?
- u What brings you closer to your purpose and well-being?
- u If this card could speak to you, what would it say?

Advice turns interpretation into conscious action.

Practical Example with a Card: The Moon

1. LIGHT

Your intuition is very active. You have sensitivity and a deep connection with your inner world

2. SHADOW

There may be confusion, illusions, or hidden fears. Not everything is as it seems; avoid assumptions

3. ADVICE

Listen to your instincts, but verify before acting. Seek clarity, meditate, and trust your timing

Keys to Balancing Light and Shadow

- u Do not reject the shadow; it is your teacher.
- u Observe without judging.
- u Accept what you see.
- u Choose from your personal power.

Always Remember: The Tarot does not predict your destiny.

It shows you possibilities so that you can choose with greater awareness and freedom.

FINAL 3 CARDS PRACTICE

Observe, feel, interpret, and trust

Now it is your turn. Use what you have learned in this guide to perform a complete and conscious reading. Take your time, breathe, and enjoy the process.

Before You Begin:

- u Formulate your question clearly.

- u Trust what you perceive.

FROM SYMBOL TO INTERPRETATION

THE BRIDGE BETWEEN SEEING AND UNDERSTANDING

Interpreting is not predicting.
It is connecting the elements of the card with your question, your intuition, and your reality.

This method helps you move from the symbol (what you see) to the message (what it means).

From What You See to What It Means

1

OBSERVE

Look without judging.
Describe what you see in the card.

Guiding questions:

- u What colors predominate?
- u What characters are there?
- u What objects or symbols appear?
- u What is happening in the scene?
- u Where is the action heading?

2

FEEL

Connect with the emotion the card awakens in you.

Guiding questions:

- u What emotion does this card convey to me?
- u Do I feel attracted, uneasy, joyful, sad, inspired?
- u Where do I feel it in my body?
- u What memory or situation does it evoke?

3

INTERPRET

Turn what you see and feel into a clear and useful message.

Guiding questions:

- u What does the card want to show me in this situation?
- u What does it advise me or invite me to understand?
- u What action or attitude can I take?
- u What lesson is here for me?

Practical Example with a Card: The Star

1

I OBSERVE

I see a figure kneeling, pouring water onto the earth and into the lake. There are stars shining in the sky.

Key elements

Water, stars, nature, light, nudity, calm.

2

Main emotion

Hope, healing, faith, inspiration.

3

I INTERPRET

The message is that after a difficult time, clarity and healing arrive. It is time to trust the process and renew myself.

Useful message

Trust the flow of life. You are healing and aligning with your purpose.

Common Mistakes

- u Wanting to interpret without carefully observing the card.
- u Jumping straight to memorized meanings.
- u Ignoring what you truly feel.
- u Forcing the message to fit what you want to hear.
- u Not connecting the card to your specific question.
