BEFORE YOU BEGIN: TAROT DOESN'T HAVE TO BE COMPLICATED

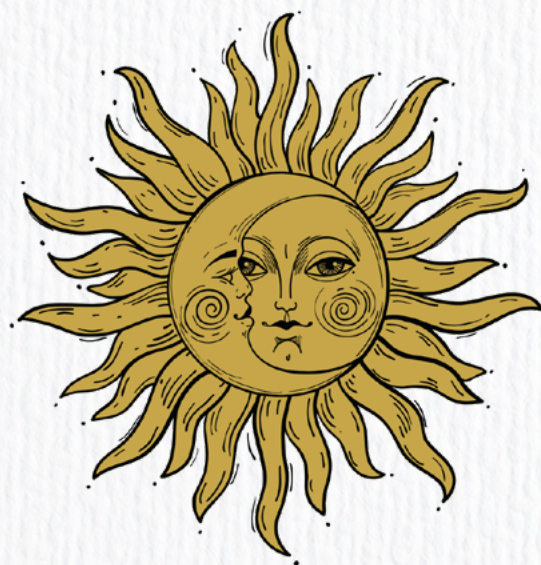

If you are just beginning with Tarot, it is normal to have doubts: am I interpreting correctly? What if I don't understand a card? Do I need to memorize all the meanings?

The answer is simple:

you don't need to know everything to begin. You need a clear method, practice, and confidence.

This guide was created so that...

you can do your first spread calmly, step by step, understanding what to do before, during, and after drawing the cards. Here you will learn to observe the symbols, connect with your intuition, and organize a basic reading without feeling lost.

Trust yourself. Your intuition is your best guide.

"It's not about always getting it right, but about connecting with yourself."

Spread:

it is the way we place one or more cards on the table to answer a question, understand a situation, or receive guidance.

Trust yourself. Your intuition is already your best guide.

"It's not about always being right, but about connecting with yourself."

PREPARATION FOR YOUR FIRST SPREAD

Before interpreting, first create clarity, calm, and
intention

@mycarto.map

WHAT IS A TAROT SPREAD

A Tarot spread is an organized way of drawing cards to receive guidance. It is not about predicting the entire future, but about observing possibilities, emotions, blockages, and available paths.

01

Question

Everything begins with a clear intention. The question guides the reading.

Examples:

What do I need to understand about this situation?
What is blocking me right now?
Which path is best for me to take?

02

Cards

The cards show symbols, scenes, and energies related to your question.

Examples:

Each card is like a symbolic language that reveals important information for you.

03

Interpretation

Understand the symbols, connect with your intuition, and apply the message to your current life.

Examples:

No hay una sola verdad. Tu intuición + el significado de las cartas = tu mensaje personal.

What is it for?

- u Gain clarity in moments of doubt.
- u Understand what you are experiencing.
- u Discover options and new paths.
- u Make more conscious decisions.
- u Connect with yourself and your intuition

The Tarot does not decide for you. It shows you, guides you, and helps you choose from your own power.

HOW TO PREPARE YOUR SPACE AND YOUR ENERGY

Before doing your spread, it is important to create a calm environment and align your energy. You do not need a perfect place, only a space where you feel comfortable, safe, and connected with yourself.

1. Prepare your space

- u Choose a clean and organized place. It can be a table, desk, or even your special corner.
- u Use elements that inspire you and bring you calm.
- u Soft light, candles, crystals, plants, and objects that have meaning for you.
- u Avoid loud noises and distractions while doing your spread

2. Prepare your energy

- u Take 3 deep breaths. Inhale calm, exhale tension.
- u Close your eyes for a few seconds and connect with yourself and your intention.
- u Let go of the worries of the moment. This is your sacred time.
- u You may say a short prayer, affirmation, or ask the universe, your guides, or your higher self for guidance

Remember

Your energy is your best tool.

There is no single or correct way; what matters is that you feel good and authentic.

When you are well, your reading will be clearer

Your space does not have to be perfect; it has to be yours and make you feel at peace.

Examples of affirmations:

- u I am open to receiving clear guidance.
- u I trust my intuition.
- u The cards show me what I need to see.
- u I am in the right place, at the right moment.
- u I trust myself and the process

Mini focusing ritual:

1. Light a candle or inhale a fragrance you like.
2. Place your hands on the deck and give thanks.
3. State your intention out loud or in your mind.
4. ~~Feel that you are ready. Now, begin.~~

What is NOT necessary

- ✗ You do not need to decorate your space excessively.
- ✗ You do not need expensive crystals or many objects.
- ✗ You do not need previous experience.
- ✗ You do not need to memorize meanings.
- ✗ You only need intention, presence, and openness

HOW TO FORMULATE A GOOD QUESTION

*The question is the compass of your spread. A good question gives you clarity. A confusing question gives you confusing answers.
Your intention defines the quality of your reading*

Characteristics of a good question

- u Clear: easy to understand.
- u Specific: focused on one topic.
- u Open: allows for several answers and possibilities.
- u Personal: speaks about your situation, not someone else's.
- u Positive: focused on solutions, learning, and paths.
- u Focused on the present or the near future

Remember

The Tarot does not answer questions about health, exact dates, or decisions that do not depend on you. It shows you energies and possibilities so that you can choose.

Examples of questions that DO work

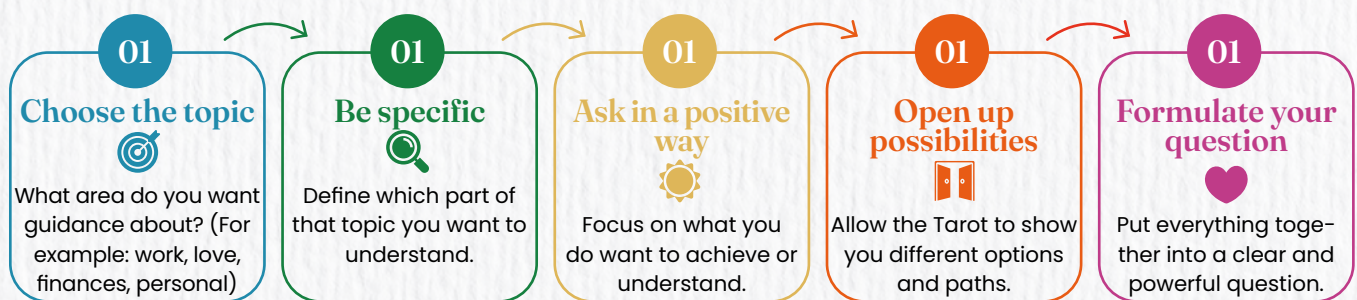

- u What can I learn from this situation?
- u What options do I have at this moment?
- u What energy is affecting me right now?
- u What do I need to let go of in order to move forward?
- u How can I improve this situation?

The best questions empower you; they do not limit you.

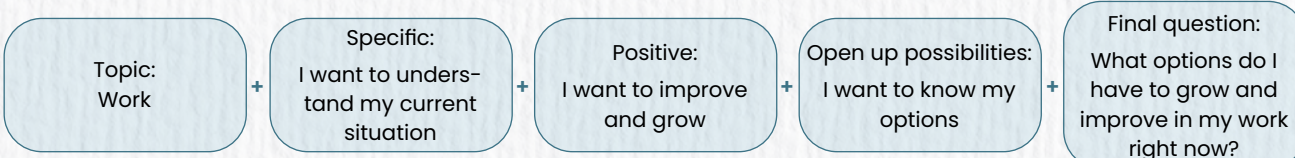

Examples of questions that DO NOT work

- x Will they love me forever?
- x Will I win the lottery?
- x When will I get married?
- x What does so-and-so think of me?
- x Will I be okay? (too vague)
- x Why is this happening to me?

Practical formula for creating your question

HOW TO SHUFFLE CUT, AND CHOOSE THE CARDS

Each step of the process is important. It is not just about mixing the cards, but about connecting with your intention and allowing the Tarot to guide you.

1- Shuffle with intention

Hold the deck between your hands.
Take a deep breath and focus on your question.
Shuffle the cards in the way that feels most comfortable to you.
There is no single correct way.

Tips

- u Shuffle for as long as you feel necessary.
- u You can imagine that you are mixing your energy with the energy of the deck.

2- Cut the deck

When you feel it is ready, cut the deck into two or three piles with your non-dominant hand. This helps release energy and allows the cards to reorganize themselves.

1. Take one part of the deck
2. Place it to one side or in the center
3. Put the parts back together

Why cut?

- u It breaks energy patterns.
- u It allows the reading to be clearer.
- u It helps you let go of control and trust.

3- Choose your cards

Spread the deck out in a fan on the table or hold it in your hand. Trust your intuition. Choose the cards by letting them catch your attention. Do not choose them with your mind; choose them with your heart.

Ways to choose

Let them jump out

Release the deck and take the cards that come out.

Choose from the fan

Look at the fan and choose the cards that call to you.

Feel the energy

Close your eyes and choose guided by the feeling.

Remember

There is no right or wrong way.
The best way is the one that connects you with yourself and your intention.

What to do afterward?

Thank the Tarot for its guidance.

Keep your energy calm and open.

Trust the message you will receive.

Do your spread with faith and intention.

Mini connection ritual

Breathe. Center yourself. Trust. Shuffle. Cut. Choose. Receive.

The Tarot speaks to you at the exact moment when you are ready to listen.

CLEAR AND CONFIDENT INTERPRETATION

Understand the cards with confidence, connect with
your intuition, and express the message clearly.

@mycarto.map

HOW TO INTERPRET WITHOUT MEMORIZING EVERYTHING

No necesitas aprender significados de memoria. Puedes interpretar desde lo que ves, lo que sientes y tu intuición

1- Observe the card

Look at it calmly and describe what you see. Do not judge, just observe.

*What do you see in the image?
What characters are there?
What are they doing?
What elements or symbols appear?
What colors predominate?
What feeling does it convey to you?*

2- Connect with the message

Relate what you see to your question and your current situation.

*What part of the image speaks to my question?
What is this card telling me about my situation?
What advice or warning can it give me?
What action does this card inspire me to take?*

3- Use the 3 sources of meaning

What you see

The visual details are the foundation. Trust your ability to observe.

What you feel

Your emotional reaction is valuable information. What does this card make you feel? Calm, joy, alertness?

What you know

Use your knowledge as support, not as rules. Add information, but do not limit yourself to it.

4- Apply a simple structure

This mini method helps you organize your interpretation without making it complicated

What you see

1. The card is... (name of the card)
2. What I see... (main elements)
3. What I feel... (first impression)
4. The message for me is... (connection with your question)
5. The action it inspires me to take is... (next step)

Practical example

Card: The Star

What I see: A woman pouring water, stars, peaceful night, nature.

What I feel: Peace, hope, renewal, confidence.

The message for me is: It is time to heal, trust the process, and keep the faith.

The action it inspires me to take is: Take care of myself, be patient, and keep moving forward.

Remember

There is no single correct interpretation.

Every reading is unique, just like you.

Trust your perspective, what you feel, and your intuition.

LIGHT, SHADOW AND INTUITION

Every card has lights that show paths, shadows that reveal lessons, and intuitions that guide you beyond words.

1. The light

It is the positive side, what flows, the resources, and the blessings present in the situation.

- u What strengths does this card show?
- u What is working well?
- u What can I take advantage of or be grateful for?

The light shows you where to focus and what you can expand.

2. The shadow

These are the challenges, blockages, fears, or patterns that ask to be seen and transformed.

- u What may be hidden?
- u What do I need to let go of or heal?
- u What is this situation teaching me?

The shadow is not something bad: it is an opportunity for growth

3. Intuition

It is that inner voice that gives you messages, feelings, and ideas beyond logic.

- u What do I feel when I look at this card?
- u What image, word, or memory comes to me?
- u What deep message resonates with me?

Your intuition is unique and always knows what you need to hear

1. Light

The Moon speaks to me of awakened intuition, spiritual connection, and sensitivity. It is a call to trust my dreams and my inner world.

2. Shadow

There may be confusion, fears, or self-deception. It invites me to look at what I do not want to see and to let go of what clouds my vision.

Intuition

I feel that I need to slow down, listen to my inner voice, and not make hasty decisions. The message is: trust, what you are looking for is being revealed little by little.

Important reminder

There is no single correct interpretation. What matters is that your reading makes sense to you, is consistent with your question, and helps you make more conscious and aligned decisions.

Final advice

The more you practice, the clearer your connection with the cards and with yourself will become. Trust your process. You and the Tarot are a great team.

— Module 03 — GUIDED PRACTICE

Practice gives you confidence. It is time to do your
first spread step by step.

- u Take a deep breath and observe the cards laid out in front of you.
- u Feel the overall energy of the spread.
- u Question: What main message does the Tarot want to give me?
- u Open your mind and your heart to receive.

3- Connect the cards with one another

The Tarot speaks as a whole. Observe how the cards relate to one another and how their messages complement each other. Think about the story they tell together.

Past / Cause

+

Present / Current situation

+

Future / Possible outcome

2- Observe each card

Look at each card carefully and analyze it.

- u The image: What do you see? What details catch your attention?
- u The colors: What feelings do they convey to you?
- u The symbols: What do they mean to you?
- u The number and the element: How do they connect with your question?
- u The position in the spread: What role does it play in the overall reading?

Ejemplo práctico

Si en tu tirada aparece "La Luna" en posición de desafío, puede estar hablandote de miedos, confusiones o de confiar más en tu intuición para ver la verdad

4- Listen to your intuition

After analyzing, close your eyes for a moment and feel your first impression.

What word, image, or feeling comes to you? Your intuition is the key that brings the message to life.

Remember

There is no single correct interpretation.
There are many ways to see the same message. Trust what resonates with you.

Questions that help you interpret

- u What is happening in this situation?
- u What do I need to know or understand?
- u What energy is helping me?
- u What obstacles or challenges are there?
- u What advice do the cards give me?
- u What can I do to improve?
- u What is the possible outcome if I act this way?

Tips for a clear interpretation

- u Write your impressions in a notebook.
- u Do not rely only on the meaning from the book.
- u Use the meaning as a guide, not as a rule.
- u Practice regularly; your intuition will grow.
- u Do not interpret from fear; do it from love and truth.
- u Always be grateful for the message you receive.

Common mistakes when interpreting

- u Forcing the meaning to match what you want.
- u Staying only with the traditional meanings.
- u Interpreting from fear or negativity.
- u Not connecting with the question before beginning.
- u Doubting your intuition.

Simple interpretation example

Question

What do I need to know about my work situation?

Card 1

Past

You have worked with discipline and perseverance. You have built a solid foundation.

Card 2

Present

There is movement. New ideas and opportunities are approaching.

Card 3

Future

You can achieve stability and success if you take advantage of the opportunities.

Final message

Your past effort has prepared you for new opportunities. Act with confidence and you will see positive results.

Always remember

The Tarot does not decide for you; it shows you paths, energies, and possibilities. You always have the power to choose your destiny. Trust yourself, trust the process, and trust the magic within you.

You are exactly where you need to be. Everything is okay.
